Current Portfolio Construction

*The share class performance prior to September 2, 2024 reflects the performance of HL Private Infra Fund Cayman Holdings LP ("Holdings") and is not direct past performance of the subsequently formed Hamilton Lane Global Private Infrastructure Fund ("GPI"). Past performance is not indicative of future results. Please refer to endnotes on page 3.

Monthly Commentary

The Hamilton Lane Global Private Infrastructure Fund X-CAD Hedged and Unhedged share classes returned +0.86% and +0.35% for June, bringing annualized since-inception returns to +27.49% and +29.10%, respectively. The depreciation of the US Dollar had a negative impact on the CAD-denominated share classes this month, with both CAD-denominated share classes underperforming the I-USD share class at the Master Fund level, which returned +1.25%. Public markets had positive returns in June, with the MSCI World returning +4.32% in USD terms and the Dow Jones Brookfield Global Infrastructure Index returning +0.80% in USD terms.

GPI generated positive performance in June and closed 4 new investments:

- Project Look is an LP led secondary transaction into ICG Infrastructure Fund I. This is a portfolio of mature, well-performing, assets in Western Europe with downside protection alongside a high-quality sponsor in ICG.
- Project Starling is a GP led secondary alongside Duration Capital into Watco. Watco is a short-line rail owner and operator with 47 railroads, 7,100 miles of track and 75 terminal and port locations across North America. Watco plays a key role in end markets through its critical transportation infrastructure and is strategically positioned to capitalize on long-term industrial growth trends through its extensive, integrated network.
- Dispatch Energy is a co-investment alongside Terramont Infrastructure Partners into a renewable energy focused independent power producer. The operating portfolio includes 36.4 MWs of solar, 5 MWs of fuel cells and 1.5 MWs of CHP assets across 12 states. The pipeline includes 460 MWs of capacity across various stages in the development process. Approximately 91% of revenue comes from long-term contracts from institutional quality off-takers, creating downside protection for the business.
- ClearGen is a co-investment into a portfolio of seasoned, operating onshore wind assets alongside Tactical Infrastructure Partners. The portfolio consists of 23 fully operational underlying assets that have been in operation for 9 years. Revenue is highly contracted with approximately 95% contracted to investment grade off-takers. All Infrastructure Tax Credits and Production Tax Credits are fully secured, insulating the investment from recent legislative changes.

As of June, GPI has made 35 investments alongside 27 unique general partners, providing exposure to 111 underlying assets.

ENDNOTES

¹Inclusive of \$138.5B in discretionary assets under management and \$819.5B in non-discretionary assets under supervision, as of March 31, 2025.

²The 2024 capital committed includes all primary commitments that closed during the year 2024 for which Hamilton Lane retains a level of discretion as well as nondiscretionary advisory client commitments for which Hamilton Lane performed due diligence and made an investment recommendation. Direct investments includes all discretionary and nondiscretionary advisory direct equity and direct credit investments that closed during 2024. Secondaries includes all discretionary and nondiscretionary advisory secondary investments with a signing date during 2024.

³Fund AUM includes current NAV plus net subscriptions received for 1 July 2025 dealing date, shown in CAD millions.

Disclosures

This presentation has been prepared solely for informational purposes and contains confidential and proprietary information, the disclosure of which could be harmful to Hamilton Lane. Accordingly, the recipients of this presentation are requested to maintain the confidentiality of the information contained herein. This presentation may not be copied or distributed, in whole or in part, without the prior written consent of Hamilton Lane.

The information contained in this presentation may include forward-looking statements regarding returns, performance, opinions, the fund presented or its portfolio companies, or other events contained herein. Forward-looking statements include a number of risks, uncertainties and other factors beyond our control, or the control of the fund or the portfolio companies, which may result in material differences in actual results, performance or other expectations. The opinions, estimates and analyses reflect our current judgment, which may change in the future.

All opinions, estimates and forecasts of future performance or other events contained herein are based on information available to Hamilton Lane as of the date of this presentation and are subject to change. Past performance of the investments described herein is not indicative of future results. In addition, nothing contained herein shall be deemed to be a prediction of future performance. The information included in this presentation has not been reviewed or audited by independent public accountants. Certain information included herein has been obtained from sources that Hamilton Lane believes to be reliable, but the accuracy of such information cannot be guaranteed.

This presentation is not an offer to sell, or a solicitation of any offer to buy, any security or to enter into any agreement with Hamilton Lane or any of its affiliates. Any such offering will be made only at your request. We do not intend that any public offering will be made by us at any time with respect to any potential transaction discussed in this presentation. Any offering or potential transaction will be made pursuant to separate documentation negotiated between us, which will supersede entirely the information contained herein.

Certain of the performance results included herein do not reflect the deduction of any applicable advisory or management fees, since it is not possible to allocate such fees accurately in a vintage year presentation or in a composite measured at different points in time. A client's rate of return will be reduced by any applicable advisory or management fees, carried interest and any expenses incurred. Hamilton Lane's fees are described in Part 2 of our Form ADV, a copy of which is available upon request.

The following hypothetical example illustrates the effect of fees on earned returns for both separate accounts and fund-of-funds investment vehicles. The example is solely for illustration purposes and is not intended as a guarantee or prediction of the actual returns that would be earned by similar investment vehicles having comparable features. The example is as follows: The hypothetical separate account or fund-of-funds consisted of \$100 million in commitments with a fee structure of 1.0% on committed capital during the first four years of the term of the investment and then declining by 10% per year thereafter for the 12-year life of the account. The commitments were made during the first three years in relatively equal increments and the assumption of returns was based on cash flow assumptions derived from a historical database of actual private equity cash flows. Hamilton Lane modeled the impact of fees on four different return streams over a 12-year time period. In these examples, the effect of the fees reduced returns by approximately 2%. This does not include performance fees, since the performance of the account would determine the effect such fees would have on returns. Expenses also vary based on the particular investment vehicle and, therefore, were not included in this hypothetical example. Both performance fees and expenses would further decrease the return.

Hamilton Lane (Germany) GmbH is a wholly-owned subsidiary of Hamilton Lane Advisors, L.L.C. Hamilton Lane (Germany) GmbH is authorised and regulated by the Federal Financial Supervisory Authority (BaFin).
