⁶*The Fund is not a liquid investment. No Shareholder will have the right to require the Fund to redeem its Shares.* The Fund from time to time intends to offer to repurchase Shares pursuant to written tenders by the Shareholders. The Adviser anticipates recommending to the Board that, under normal market circumstances, the Fund conduct repurchase offers of no more than 5% of the Fund's net assets generally quarterly beginning on March 31, 2025 (or such earlier or later date as the Board may determine) and thereafter quarterly. Any repurchases of Shares will be made at such times and on such terms as may be determined by the Board from time to time in its sole discretion. The Fund may also elect to repurchase less than the full amount that a Shareholder requests to be repurchased. In determining whether the Fund should offer to repurchase Shares from Shareholders of the Fund pursuant to repurchase requests, the Board may consider, among other things, the recommendation of the Adviser as well as a variety of other operational, business and economic factors.

⁷The Investment Management Fee is equal to 1.40% based on the Fund's net asset value calculated and accrued monthly as of the last business day of each quarter. The Investment Management Fee is paid to the Adviser before giving effect to any repurchase of Shares in the Fund effective as of that date and will decrease the net profits or increase the net losses of the Fund that are credited to its Shareholders. The Adviser has contractually agreed to waive the Investment Management Fee in full for the one-year period beginning from the effective date of the registration statement (the "Management Fee Waiver Agreement"). Unless otherwise extended by agreement between the Fund and the Adviser, the Investment Management Fee payable by the Fund after the termination of the Management Fee Waiver Agreement will be at the annual rate of 1.40%. The waiver of the Investment Management Fee under the Management Fee Waiver Agreement is not subject to recoupment by the Adviser under the Expense Limitation Agreement.

IMPORTANT RISK INFORMATION

Investors should carefully consider the investment objectives, risks, charges and expenses of the Fund before investing. For a prospectus that contains this and other information about the Fund, call 1 (888) 882-8212 or visit our website at www.hamiltonlane.com/pifprospectus. Please read the prospectus carefully before investing. Past performance is not indicative of future results. Investing in the Fund involves risk including loss of principal.

The Fund operates as a non-diversified, closed-end management investment company under the Investment Company Act of 1940, as amended.

Shares are speculative and illiquid securities involving substantial risk of loss. Shares are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment and for whom an investment in the Fund does not constitute a complete investment program.

The Fund has limited operating history and the shares have no history of public trading and it is not anticipated that a secondary market for Shares will develop. We do not expect a secondary market in the shares to develop.

Shares are subject to substantial restrictions on transferability and resale and may not be transferred or resold except as permitted.

An investment in the Fund is generally subject to market risk, including the loss of the entire principal amount invested. An investment in the Fund represents an indirect investment in the securities owned by the Fund. Shares are appropriate only for those investors who can tolerate a high degree of risk and do not require a liquid investment and for whom an investment in the Fund does not constitute a complete investment program.

Some of the principal risks of the Fund include limited operating history, limited liquidity, restricted and illiquid investments, non-diversification, and valuations subject to adjustments. The Fund may engage in the use of leverage, hedging, and other speculative investment practices that may accelerate losses.

Although the Fund is allocated across sectors and asset classes, it is a non-diversified fund and subject to risks associated with concentrated investments in a specific industry or sector and therefore may be subject to greater volatility than a more diversified investment.

The amount of distributions that the Fund may pay, if any, is uncertain. The Fund may pay distributions in significant part from sources that may not be available in the future and that are unrelated to the Fund's performance, such as offering proceeds, borrowings, and amounts from the Fund's affiliates that are subject to repayment by investors.

Certain investments in the Fund are illiquid making it difficult to sell these securities and possibly requiring the Fund to sell at an unfavorable time or price. The value of certain Fund investments, in particular non-traded investment vehicles, will be difficult to determine and the valuations provided will likely vary from the amounts the Fund would receive upon sale or disposition of its investments.

The valuations reported by the Portfolio Fund Managers, based upon which the Fund determines its month-end net asset value and the net asset value per Share may be subject to later adjustment or revision. Because such adjustments or revisions, whether increasing or decreasing the net asset value of the Fund at the time they occur, relate to information available only at the time of the adjustment or revision, the adjustment or revision may not affect the amount of the repurchase proceeds of the Fund received by Shareholders who had their Shares repurchased prior to such adjustments and received their repurchase proceeds, subject to the ability of the Fund to adjust or recoup the repurchase proceeds received by Shareholders under certain circumstances.
